

TRAINING NEWS SEPTEMBER

2017

Well summer has officially gone, Sail Training Week is just a memory and the kids are back at school. What better time to gain some more qualifications?

After a summer break, training courses are back on the agenda as follows:

POWERBOAT LEVEL 2

The next courses are planned for Monday and Tuesday **2nd and 3rd October**. For those of you who would prefer a weekend course, **14th and 15th October** have been pencilled in if there is sufficient interest. We are also looking to hold a course during the Autumn half term (**23rd to 28th October**), primarily aimed at young persons over 12 years of age. Please complete a booking form which is available from the website or contact the office if you wish to attend these courses.

DIESEL ENGINE COURSE

The first course was held in May and was very well received. We are planning to hold another course in the autumn so watch this space for dates.
